

## Pre-Owned Vehicle Locator

The Volvo Pre-Owned Vehicle Locator lets customers search for a vehicle as broadly or specifically as they'd like.

### DATA

The data is drawn from Dealer.com, which is fed by your Dealer Management System. As long as the information you have entered is accurate and complete, your vehicles should display properly in the tool.

Important note: In order for the price to appear on the site, you must enter it in the Internet Price field. If you leave this field blank, the price will not appear on the site.

### ACCESS INSTRUCTIONS

Consumers can access the Pre-Owned Vehicle Locator at: [certifiedbyvolvo.com](http://certifiedbyvolvo.com). They can also navigate to the site from [www.volvocars.us](http://www.volvocars.us) by clicking Cars, then Certified by Volvo. From there, click the Search Inventory button on the center of the page to access the locator.

### DEALERSHIP MICROSITE

Each retailer has a microsite on [certifiedbyvolvo.com](http://certifiedbyvolvo.com). To view the site, simply select "Find a Dealer" and enter your ZIP code. Select "Expand" next to your dealership name and then "View Inventory."
