

Volvo Prepaid Maintenance

Every Volvo comes with 30,000 miles of complimentary maintenance. If the vehicle is sold during the free maintenance window, the complimentary service stays with the vehicle. After 30,000 miles, it is the customer's responsibility to ensure their vehicle is maintained at its peak performance. The Volvo Prepaid Maintenance Plan offers customers a convenient and affordable way to plan for maintenance expenses.

Volvo Prepaid Maintenance is a powerful customer retention tool that helps retailers increase service drive traffic, strengthen customer loyalty over time, and increase customer satisfaction. So, when it comes time to purchase their next new vehicle, customers are more likely to stay with the Volvo brand.

Three Key Benefits of Prepaid Maintenance:

- **Savings:** Up to 20% compared with buying them a la carte.
- **Convenience:** By paying in advance, customers don't have to worry about the cost of routine maintenance services. Plus, customers can roll the cost of the plan into their vehicle payment to spread out the cost over time.
- **Value:** This program ensures that customers' pre-owned vehicles are serviced by factory-trained technicians using Volvo Genuine Parts and the latest technologies.

Maintenance service packages of two, three, five, or seven services may be purchased, up to 100,000 miles.

Refer to the [Prepaid Maintenance Plans Brochure](#) for more details.
